WELCOME

As Senior Vice Dean and David Lawrence Stein/Violet Goldberg Sachs Professor of Mental Health, I welcome students and Field Instructors who are engaged in the interactive process of teaching and learning about the practice of professional social work in the real world. Field Education is committed to providing opportunities for our students to develop skills in the most current practices, particularly in evidence-based interventions, and to receive supervision by the finest Field Instructors in the country.

This Field Education Manual is designed to provide general information and guidance about Field Education and the Field Practicum to students and Field Instructors at all of our Academic Centers (AC) - the University Park Campus (On Campus Program or OCP) and the Virtual Academic Center (VAC).

Individual and specific questions are encouraged and can be directed to those field faculty who are assigned to each student as field liaisons at each Academic Center. If there continues to be a concern, then the Associate Directors of Field Education will be contacted by the advisor/liaison for further discussion. The roles of the Senior Vice Dean, the Associate Directors, and the Faculty are to provide our students as much support as possible in the process of integrating theory with practice.

Field Education is the Heart of Social Work and we want to provide an experience for each student that represents the reality of professional social work practitioners and agencies today. The experiences in the Field Practicum can evoke a range of reactions and like the challenges in our communities, the process of learning in the Field is dynamic and complex. You may confront difficult situations and dilemmas in the first early months. With early and open communication and good collaborative problem solving, the learning during the academic year will be profound and life changing,

I extend my thanks and best regards to students and Field Instructors for beginning a life long journey of learning, self-discovery and transformation.

Marleen Wong, Ph.D., L.C.S.W.
Senior Vice Dean
David Lawrence Stein/Violet Goldberg Sachs Professor of Mental Health
Director of Field Education
Fellow, American Academy of Social Work and Social Welfare
Child, Youth and Family Department

[MISSION STATEMENT OF THE USC SUZANNE DWORAK-PECK SCHOOL OF SOCIAL WORK](#)

The mission of the USC Suzanne Dworak-Peck School of Social Work is to promote social justice and well-being at every social level through advanced education, community engagement, interdisciplinary scientific activity, advocacy, and professional leadership.

I. FIELD EDUCATION

Field Education is an independent and integral sequence of the MSW curriculum. Students are exposed to selected and organized opportunities guided by the [Educational Policy and Educational Standards \(EPAS\)](#) and the [nine Core Competencies of the Council on Social Work Education \(CSWE\)](#). As the Signature Pedagogy of Social Work Education, Field Education seeks to validate, apply, and integrate the knowledge, theories, and concepts of social work practice learned throughout the curriculum. Field agencies are expected to provide "in vivo" experiences relevant to the academic content. The student on the other hand is expected to apply academic knowledge, social work skills, critical thinking, professional behavior, ethics and values learned in the classroom to direct practice work.

It is imperative for the agency and the school to collaborate for integration of learning to occur concurrently in field sites and in the classrooms in the VAC. USC administrators, professors, and field liaisons partner with agency Field Instructors to foster comprehensive and high quality social work education and training. The collaboration teaches and guides students to practice with sensitivity to cultural and ethnic diversity and to abide by professional social work behaviors, values, and codes of ethics. This comprehensive approach helps prepare students to practice social work with adverse populations and to take on leadership roles within the profession.

A. Objectives of Field Education

Field Education prepares students to enter the social work profession by meeting the following objectives:

- To integrate academic learning with all levels of field work (micro, mezzo, macro).
- To achieve proficiency in the required [competencies](#) for social work education as it relates to field work.

The 2015 CSWE Social Work Competencies are as follows:

1. Demonstrate Ethical and Professional Behavior
 2. Engage Diversity and Difference in Practice
 3. Advance Human Rights and Social, Economic, and Environmental Justice
 4. Engage in Practice-Informed Research and Research-Informed Practice
 5. Engage in Policy Practice
 6. Engage with Individuals, Families, Groups, Organizations, and Communities
 7. Assess Individuals, Families, Groups, Organizations, and Communities
 8. Intervene with Individuals, Families, Groups, Organizations, and Communities
 9. Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities
- To develop the ability to understand and utilize a broad range of modalities and interventions in micro, mezzo, and macro practice with diverse populations.
 - To focus on building the knowledge for generalist practice in the 1st semester to establish a broad foundation for direct practice work
 - To develop a deeper knowledge and depth of skills needed for beginning professional practice in a designated Department of Study in the 2nd, 3rd, and 4th semesters.

B. Program Overview

The USC Suzanne Dworak-Peck School of Social Work is a top ranked social work graduate program (U.S. News and World Report) in the country. It has the largest full-time Master of Social Work (MSW) program in the country and it is ranked as a level one research school. We offer opportunities for students to select from a four-semester, six-semester, eight-semester, or

an advanced standing program. The regular standing MSW degree requires the completion of a minimum of 60 semester units, including four semesters of Field Internship. Students must commit to a minimum of at least one eight-hour day (a maximum of 10 hours with prior faculty approval) during regular business hours (Monday-Friday, 8am-5pm) at an approved agency site.

Highlights of the Program:

- Four-semester, six-semester, eight-semester, or advanced standing options enabling students to finish on their timetable
- A choice of academic centers: OCP or VAC
- A choice of three Departments of Study and/or department specific tracks (formerly sub-concentrations)
- Dual-degree programs (OCP only)
- A variety of department specific electives
- Field Internships are assigned according to students' learning needs and educational goals

Quick Facts:

Degree Programs

- [Master of Social Work](#)
- [Master of Science in Nursing/Family Nurse Practitioner \(VAC\)](#)
- [Doctor of Philosophy](#)
- [Doctor of Social Work](#)
- MSW to PhD Direct

Departments of Study

- [Adult Mental Health and Wellness \(AMHW\)](#)
- [Children, Youth and Families \(CYF\)](#)
- [Social Change and Innovation \(SCI\)](#)
 - ❖ Note that each Department of Study offers its own specific track of study (i.e. Military, School, etc.) that will require completion of specific elective courses

Dual Degree Programs (OCP only)

- [Master of Social Work/Juris Doctor](#)
- [Master of Social Work/Master of Business Administration](#)
- [Master of Social Work/Master of Science in Gerontology](#)
- [Master of Social Work/Master of Arts in Jewish Nonprofit Management](#)
- [Master of Social Work/Master of Planning](#)
- [Master of Social Work/Master of Public Administration](#)
- [Master of Social Work/Master of Public Health](#)
- [Master of Social Work/Doctor of Philosophy](#)

E. Field Agency Sites

The Field Internship, also known as a student's placement or applied learning in field education, takes place in [USC Memorandum of Agreement \(MOA\)](#) or contract approved agencies located throughout the country which represent a wide range of social work services and practice. These agencies are approved sites based on the quality of the professional practice, commitment to addressing social problems and an interest to participate in the professional education of MSW students. The agency is responsible for providing the learning opportunities representative of social work practice within the student's region and/or community. They must subscribe to the USC Suzanne Dworak-Peck School of Social Work educational objectives, the [CSWE EPAS and the nine core competencies](#).

Note: MSW students are not allowed to identify nor secure their own field placement site but may suggest potential sites for pre-approval processing.

Field internship sites must treat the students as learners while providing the resources necessary to meet their learning objectives. Unless officially approved by the USC Suzanne Dworak-Peck School of Social Work Field Faculty and Administration, students may not work at home during the placement hours. Hours worked at home without the express consent of Field

Faculty and Field Education Administration will not be counted as meeting the number of hours required for a passing grade.

Note: Students cannot sign any agency "contracts" nor enter into any agreements that refute or negate the provisions in the official agency/organization MOA with the USC Suzanne Dworak-Peck School of Social Work. This includes important policies regarding placement hours and educational calendar events such as finals week or All School Day.

There are instances when an agency may not possess the resources to provide all the required learning experiences. In such cases, a secondary placement site may be identified and used for the purpose of meeting the student's learning objectives and accumulation of Field Internship hours. A large multi-disciplinary placement agency site may also decide to broaden the student's experience by rotating to different departments to expand learning opportunities. In any of these options, the primary agency site carries the main responsibility for field instruction while the secondary site provides a Preceptor for supplemental supervision. All options must be expressly pre-approved by the USC Suzanne Dworak-Peck School of Social Work Field Faculty and Administration prior to the start of the Field Internship or the hours will not be counted toward the number required for a passing grade.

The USC Suzanne Dworak-Peck School of Social Work welcomes agencies interested in partnering as field placement sites. To qualify as a field placement site, an agency must meet the following criteria:

- Provide a sufficient number and variety of assignments to develop student knowledge and practice skills
- Provide an opportunity to work with individuals, families, groups, communities, and organizations unless otherwise indicated by specific Concentration Coordinator
- Provide ample time for weekly field instruction to permit both individual and/or group conferences with students
- Provide adequate office space, office supplies, telephone availability, and clerical support for the student to perform assigned duties
- Provide opportunities for in-service training and access to agency consultants
- Have an interest in participating in the student's research
- Have an interest in aligning the agency's practice framework to theories taught in the classroom.

New agency sites must complete the Agency Qualifying Form (VAC) or the New Agency Information Packet (OCP) and a Memorandum of Agreement (MOA) approved by the USC Legal Counsel. An agency representative must also meet with a USC Field representative to evaluate the appropriateness of the site and for approval. This process typically takes three to six months to complete.

F. Field Education Requirements

Applied Learning in Field Education, which is the student's Field Internship (including Virtual Field Practicum in the VAC), are required courses. The table below provides the sequential overview of the courses for each semester.

Course Work

Table 1: Semester Course Information

Field Education Courses (18 total units):			
Semester 1 (3 Units)	Semester 2 (5 Units)	Semester 3 (5 Units)	Semester 4 (5 Units)
<ul style="list-style-type: none"> • Applied Learning in Field Education (589a) – 3 Units 	<ul style="list-style-type: none"> • Applied Learning in Field Education (589b) – 3 Units 	<ul style="list-style-type: none"> • Advanced Applied Learning in Field Education (699a) – 4 Units 	<ul style="list-style-type: none"> • Advanced Applied Learning in Field Education (699b) – 4 Units
	<ul style="list-style-type: none"> • Integrative Learning for Social Work Practice (588) – 2 Units 	<ul style="list-style-type: none"> • Integrative Learning for Advanced Social Work Practice (698a) – 1 Unit 	<ul style="list-style-type: none"> • Integrative Learning for Advanced Social Work Practice (698b) – 1 Unit

All MSW students on the VAC must complete one semester of Virtual Field Practicum (589a) and three semesters of community-based field placement (589b and 699a/b) by completing two semesters of Applied Learning in Field Education and two semesters of Advanced Applied Learning in Field Education as part of graduation requirements. All four courses must be completed successively as part of the graduation requirements. All students enrolled in the second semester of Applied Learning in Field Education (589b) and Advanced Applied Learning in Field Education (699a/b) shall attend the corresponding Integrative Learning for Social Work Practice course as indicated in Table 1. Field Education courses are assigned a "Credit" or "No Credit" grade.

Note: All Applied Learning in Field Education courses must be taken concurrently with the corresponding Integrated Learning for Social Work Practice courses.

Field Internship

Students must earn between **1,000 to 1,050** Field Internship hours. All Field Internship hours must be earned by completing the Virtual Field Practicum and interning at a specific agency location assigned through the formal placement process. The first two semesters of field (589a-VFP and 589b) require the completion of a minimum of **450** hours and the third and fourth semesters (699a/b) require a minimum of **550** hours. An exception is all students who are seeking to earn a [California Pupil Personnel Services Credential \(PPSC\)](#) and must earn **600** hours in a school-based or affiliated placement that meets the requirements set forth by the California Commission on Teacher Credentialing (CCTC). The Learning Agreement indicates the number of hours required for each semester in Field Education. All MSW candidates must meet the minimum **1,000** Field Internship hours to earn their degree. Advanced Standing students complete only the field requirements for the third and fourth semesters (699a/b).

The criteria and objectives vary from each Department of Study with a more generalist experience in the first semester of community-based placement to a more focused experience in the remaining semesters. Field placement days vary depending on the student classes. The student will coordinate with the agency regarding internship schedule. Field placement days are determined through a discussion between the agency and the student, with the requirement that there is at least one 8-hour day during regular business hours. There is no exception to this policy. Evening and weekend hours are very limited if non-existent in most communities. MSW supervision must be available to the student during field internship hours.

Note: Students may not work over 8 hours per day without any prior USC faculty pre-approval nor can they work more than 30 hours per week. MSW students may not bank hours to end field internship early nor can they credit hours from 589a to 589b or from 589b to 699a. Field Instructors and students must adhere to the start and end dates of field internship as indicated in the Field Calendar regardless of any excess hours earned each semester. Below are potential exceptions to this policy:

- Internship extensions: Some agencies may require students to continue during the semester breaks for continuity of care.
- Make-up for missing hours: Any scheduled make-up hours must be completed before the add/drop date of the following semester.

The agency, student, and the Field Liaison must have a discussion and pre-approve this schedule early in each field internship. **Any changes in internship requirements must be noted in the Learning Agreement.**

Field Internship is assigned to all students in the VAC. Student's refusal to participate in the field placement process and in Field Internship will delay satisfactory academic progress and may be the cause of a student's inability to complete and graduate from the MSW program. MSW students are not allowed to identify or secure their own field placement site but may suggest potential sites for pre-approval processing. This process takes 3-6 months to complete and does not guarantee the student will be placed at the suggested field agency site.

Pre-placement processing may take place prior to the start of the semester but should not exceed 6 hours per day nor can it exceed **30** hours per week. Although field agency sites may schedule pre-placement processing before the community-based placement begins, they cannot be made mandatory due to students' travel plans or permanent home addresses. These students must be given an opportunity to make-up the pre-placement processing.

Students are responsible for pre-placement contact with their placement agency. Students must make all efforts to complete agency required pre-placement processing, and any delays in making initial agency contact or beginning the Field Internship on time is also the student's responsibility. Students are also responsible for transportation to and from their placement site up to 30 miles in one direction from their place of residence (see *Transportation* on page 16 for other transportation information).

Evaluation/Grading

Applied Learning in Field Education is a 3-unit course in the first two semesters of Field Internship (589a/b) and Advanced Applied Learning in Field Education is a 4-unit course in the third and fourth semesters of Field Internship. They are Credit/No Credit classes. The grading is based on meeting all the requirements: (1) completion of required hours for each semester, (2) timely completion of the Learning Agreement, (3) timely completion of the required Reflective Learning Tools (eight per semester), and (4) achievement of the [CSWE Social Work Competencies](#) as evidenced in a satisfactory end of semester evaluation. The student may complete all the hours but fail to achieve the Competencies, in which case the grade is a "No Credit." Conversely, the student may show promise in the Competencies but fail to complete the required hours. **All four requirements must be met to pass the course and to earn a "Credit" grade.**

Note: Any grade of "In-Progress" or "No Credit" requires a Student Performance Improvement Plan (SPIP).

A Learning Agreement is completed at the beginning of the Virtual Field Practicum and community-based placement. Formal evaluations are also submitted at the end of each semester of internship. Field Instructors, students and Preceptors (if applicable) must collaborate when completing all required documents. Informal evaluation is conducted throughout the year. Field placements are monitored by Field Liaisons through periodic agency or virtual visits, student-Field Instructor meetings, telephone calls, and other contacts. Successful completion of the Field Internship requires meeting all the expected hours, obtaining satisfactory formal evaluation by meeting expected growth in the [CSWE Social Work Competencies](#), and completing eight Reflective Learning Tools turned in weekly each semester while enrolled in each semester of Field Internship.

Field Instruction

Field Instruction is taught by an individual who must possess an MSW and has at least two years of post-MSW agency experience. He/she must be approved by the USC Suzanne Dworak-Peck School of Social Work and certified to be a Field Instructor (see Section III.B on page 24). Field Instruction takes place between the student and the Field Instructor in designated agency settings which have been approved by the USC Suzanne Dworak-Peck School of Social Work and the University. An External Field Instructor (EFI) may be utilized if the agency does not employ an MSW but wants to host an MSW Intern. The same requirements apply to all EFIs.

There is a specific sequence of assignments, activities, and learning goals for Applied Learning in Field Education and Advanced Applied Learning in Field Education aligned with all other courses in the school. The USC Suzanne Dworak-Peck School of Social Work and the agency collaborate in assisting students to learn and increase their mastery of the [CSWE Social Work Competencies](#). The Field Instruction process is intentional, active, organized, sequential, and individualized. It is conducted within the framework of a particular social work agency. Over the course of four semesters of field internship, field instruction is expected to include but not be limited to the following:

- Direct practice work with individuals, families, and related groups
- Direct practice work focusing on groups, communities, organizations, and/or institutional change
- A diversity of modalities, populations, and treatment delivered in the micro, mezzo, and macro practice settings
- A range of theoretical and teaching methodologies and models.

Evidence-Based Intervention Training

All MSW candidates are required to complete trainings in three Evidence-Based Interventions. Motivational Interviewing, Problem Solving Therapy, and Cognitive Behavioral Therapy are completed either in the Virtual Field Practicum or in the first department semester of the Advanced Standing program.

G. Field Education Roles

Field education is a collaborative effort to provide a real-life social work learning experience to students placed in a designated agency. The collaboration consists of multiple professionals with distinct roles. The roles within field education are as follows:

- Senior Vice Dean, Director of Field Education
The Senior Vice Dean, Director of Field Education is a University administrator responsible for the development and continuity of the programs and policies of Field Education. She has overarching authority over all Field Education activities and functions. She is the direct supervisor of all Associate Directors and full-time Faculty. She serves as the final arbiter for issues that cannot be resolved at the Associate Director level.
- Associate Director of Field Education
The Associate Director of Field Education reports directly to the Senior Vice Dean of Field Education. He/she is responsible for the operational aspects of Field Education activities and the initial arbiter of any issues pertaining to Field Education. One Associate Director is assigned to OCP, and one is assigned to the VAC.
- VAC Regional Field Director
The Regional Field Directors provide administrative oversight for operational and programmatic initiatives of Field Education in their respective regions. Their responsibilities include providing comprehensive support to VAC students and field faculty, implementing Field procedures and protocol, overseeing student review meetings, and serving as the initial contact for student concerns, Field Instructor or agency issues. As direct reports to the Senior Vice Dean, Director of Field Education, they will represent Field Education at school events and ceremonies when conflicting demands prevent the Senior Vice Dean and/or Associate Director from attendance.
- Regional Field Faculty
These individuals are field faculty members who are part of the Regional Field Faculty Teams that oversee the successful matriculation of students at their field internship sites. They report directly to the Senior Vice Dean, Director of Field Education and are expected to teach field courses, including the Virtual Field Practicum, lead faculty and Field Instructor consultation groups, support liaisons and Field Instructors in community-based placements, and complete administrative assignments, as needed.

- Field Placement Coordinator
These individuals are staff members who are part of the Regional Field Placement Teams who oversee the placement of students in their field internship sites.
- Field Liaison
This individual is a field faculty member who coordinates, monitors, evaluates, and documents the student's field experience to insure optimal learning and professional development. He/she also provides consultation, assistance and evaluation to the student/intern and Field Instructor. They report directly to the Associate Director of Field Education.
- Integrated Learning Instructor/Professor
This individual is a clinical field faculty member or adjunct faculty who facilitates the Integrative Learning for Social Work Practice courses. He/she is also the student's Field Liaison. They report directly to the Associate Director of Field Education.
- MSW Student/Intern
The designation of "intern" is often used to refer to the MSW student when they are placed in an agency and enrolled in the Field Practicum while completing courses to earn a Master of Social Work degree.
- Field Instructor
This individual is a professional social worker and an agency representative assigned to provide weekly supervision and instruction to MSW interns in a placement site. The Field Instructor may work collaboratively with a Preceptor or daily task supervisor in an agency, but he/she has the primary and overall responsibility for the student's learning, evaluation and linkage with the University.
- External Field Instructor
This individual is contracted to supervise MSW Interns and perform all the tasks of a traditional Field Instructor. The EFI may be hired by the agency or the University. An EFI is utilized when an agency does not traditionally employ MSWs. They are to collaborate with the Preceptor in supervising and evaluating the performance of the MSW Intern.
- Preceptor
An individual affiliated with the agency who is responsible for a piece of the student's learning. He/she is a supplementary instructional figure who may or may not be a social worker by training. However the Preceptor must work closely with the Field Instructor of record.

H. Field Placement Process

Students are assigned to a section of 589a (VFP) followed by a community-based placement for three semesters (589b and 699a/b) by the Regional Field Placement Team. Assignment is based on a number of factors: the student's Department of Study, work and volunteer experience, educational background, and career aspirations. Other factors taken into account are available learning opportunities at each agency, geographic location, region or community, and other special need or circumstance. The placement process takes place while the student is completing the 589a Virtual Field Practicum. The Field Placement Team may initiate a Student Performance Review Plan (SPIP) as needed when MSW students are meeting challenges during the placement matching process or refusing a final placement match.

Students who are successfully matched are notified of their assignment to a field placement via e-mail. Once notified, the student must contact the agency as soon as possible to arrange a pre-placement visit and to complete any agency specific Human Resources processing and/or placement orientation prior to the start of the internship. The School is not responsible for any delays caused by the student not making contact with or beginning field internship at the confirmed field placement agency. The start date for field internship varies by program (OCP versus VAC). Please refer to the Field Calendar of the respective academic centers to identify the start date.

Advanced Standing students are assigned to a community-based placement for two semesters (699a/b) by the Regional Field Placement Team during the first department semester. In order to be best prepared for field internship, Advanced Standing students should also complete the Evidence-Based Interventions training, the Field Placement Support Modules, and other assigned tasks while completing the first department semester.

Note: MSW students are not permitted to identify or secure their own field placement site but may suggest potential sites for pre-approval processing. This process takes 3-6 months to complete and does not guarantee the student will be placed at the suggested field agency site.

Additional costs may be incurred by the student to meet the HR requirements of the agency for the Field Internship. These may include special training and security/health clearances (see *Appendix J*). **The students are responsible for the cost incurred.**

Students who relocate or change placements during those semesters may experience significant delays which could affect their ability to progress through the program with their original cohort. Students are required to inform the Regional Field Placement Team a minimum of 90 days before moving or returning from a Leave of Absence. Students who anticipate an international relocation should consult with the Regional Field Placement Team as soon as they have knowledge of their relocation.

Malpractice Insurance

All students entering field placement are required to participate in the USC Suzanne Dworak-Peck School of Social Work's malpractice insurance coverage. Each student must pay a required malpractice insurance fee prior to placement in a field agency (included as part of the commitment deposit). This plan covers students while they are in their community-based practicum. Copies of the Malpractice Certificate can be obtained from the Field Placement Team.

I. Field Calendar

To the fullest extent possible, students are expected to observe the agency attendance and time schedule policies. Applied Learning in Field Education (589a/b) and Advanced Applied Learning in Field Education (699a/b) are classes and students must adhere to the Field Calendar which identifies the beginning and ending dates of the internship as well as important Field Education activities and events. Each cohort has its own Field Calendar for each semester that students must follow. It is found in the Field Internship course on the [VAC learning platform](#).

The USC Suzanne Dworak-Peck School of Social Work schedules specific events that require **MANDATORY ATTENDANCE**. Student attendance and participation is required at the following events:

- Department Orientation/Immersion
- All School Day

- Evidence-Based Intervention Training
- Any other events approved by the University President or the Dean of the School (e.g., Homeless Count, etc.)

Students may participate in the following optional activities and receive field hour credits with the permission of their Field Instructors:

- State Legislative Days (if the student's home state participates in this process)
- Social Work Job Fair (if located in SoCal)

All [University Holidays](#) are sanctioned time off for students from their internships. **If a University Holiday falls on a student's regularly scheduled day at the agency, the student is not required to attend internship.** If they observe the University holiday, they do not earn credit for those hours, nor any field hours missed due to agency holidays. Students should consult with their Field Instructor and/or Preceptor to ensure their absence would not adversely affect the agency and/or client care.

Students are allowed eight hours each semester to take time off for religious holidays or illness which must be discussed in advance and arranged with the Field Instructor/Preceptor. This time counts in the Field Internship hours and the student does not have to make up this time. Make-up hours for additional time missed must also be discussed with and approved by the Field Instructor/Preceptor.

Students should approach their work at the agency as they would a place of employment, discussing any changes in schedule or promptly informing the Field Instructor/Preceptor of illness or absence. One such discussion is the University policy which prohibits students from working during Study Week. This typically falls on the week after the last day of field placement each semester. Please note that client care and continuity of agency operations must be strongly considered.

Record keeping of required field hours including time spent in placement, optional activities noted above, and make-up hours is a joint responsibility of the student and the Field Instructor. All records are maintained by the student and the Field Instructor on the Field Practicum Log, which is found in the Field Internship course on the [VAC learning platform](#).

Agencies may use technology-based time keeping using agency provided devices. Students cannot be mandated to use their personal devices.

Note: Should a problem arise due to conflicting commitments, the issues should be addressed and communicated by the student and the Field Instructor/Preceptor with the student's USC Field Liaison.

J. Transportation

MSW candidates are responsible for transportation to and from the field placement site (up to 30 miles in one direction).

Students should not transport client(s) in their personal vehicle or company vehicle unless the agency has given the student proper authorization to do so as part of the essential duty of the social work internship. The agency is responsible to provide authorization and orientation for interns to transport clients. Agencies must always provide sufficient information prior to transporting clients. If driving is an essential duty of the internship, it must be discussed with the

student during the pre-placement meeting to ensure the MSW student can meet the driving requirement.

NOTE: The University is not responsible for managing any requirements for transportation or driving as part of the Social Work Field Internship and does not maintain insurance for interns driving as part of the essential duties of the social work internship.

II. STUDENT / MSW CANDIDATE: INFORMATION ON STUDENT ROLES AND RESPONSIBILITIES IN FIELD EDUCATION

A. Introduction

The MSW student/candidate has a unique challenge of acquiring knowledge and skills in learning the principles of the Social Work profession and Code of Ethics in the classroom and in field placement. Students are required to learn and simultaneously apply the knowledge in their field internship work. Field Education provides the student this opportunity and helps increase his/her competency as a future Social Work professional. This requires strong commitment, dedication, and active participation from the MSW student/candidate. The USC Suzanne Dworak-Peck School of Social Work and the agency are both committed in guiding the student through this process.

B. Field Placement

Field Faculty assigns MSW students to a community-based placement for a duration of three semesters. The matching is based on the student's objectives, background, and circumstance.

- Complete and submit the campus specific field placement form
- Complete the Field Placement Support Modules found on the [VAC learning platform](#)
- Once the school notifies the student of the assigned placement via e-mail, the student must contact the agency as soon as possible to schedule a pre-placement visit
- Complete all pre-placement requirements as specified by the agency
- Attend the Department Immersion in the first department semester

As you engage in the Field Placement process, the following information is important to note:

- Students may incur non-refundable costs for additional health/security clearance, specialized training, and/or other human resources processing specifically required by the agency
- Students' lack of timely disclosure of special circumstances may cause significant delays in placement, and/or may lead to a delay in completing the program
- The Field Placement Team may initiate a Student Performance Review Plan (SPIP) process as needed when MSW students are meeting challenges in securing a field placement internship as determined by Field Faculty. Issues that merit this process include but are not limited to the following:
 - Students who engage in unprofessional behavior anytime during the placement matching process or violate any of the [NASW Code of Ethics](#)
 - Students who interview at and are denied placement at two agencies because of inappropriate behaviors or refuse placement at an approved agency(ies)
 - Failing three interviews due to inappropriate student behavior is the equivalent of a placement termination (see *Section IV. D. Students Terminated or Dismissed*)

from the Placement Agency or Organization).

- The SPIP protocol will adhere to *Section IV* of this manual
- If a third agency interview is being sought for the student, significant delays to the student's progress and graduation from the MSW program should be expected.
- The School is not responsible for any delays caused by placement challenges and/or student's lack of prompt attention to any placement related tasks & processes.

Field Education and Employment

CSWE standards require that field education assignments and supervision are completely different and separate from employment assignments and supervision (Accreditation Standard 2.2.11 page 13) regardless of when it starts. This standard will be followed in all place of employment (POE) related requests.

The USC School of Social adheres to the guidelines and standards of the Council on Social Work Education (Accreditation Standard 2.2.11 page 13) regarding employment and MSW internship. A formal process and protocol is in place regarding this arrangement. Students must meet with a Field Faculty/Field Liaison for clarification and assistance. Field Faculty and the Associate Director will determine the merit of any inquiries and requests.

Student may accept employment while already an MSW Intern at an agency/organization. Prior to accepting any employment offer while an MSW intern, the student must consult with his/her Field Liaison and must apply for a POE. The student must follow the same approval process as the above.

Note: Any POE request or placement comes with inherent risks. Employment demands may negatively affect or delay the student's ability to complete the requirements of the MSW program. Students must also be aware that any employment related disciplinary actions and/or termination at any point in time at current field placement may also lead to termination of field internship. Hours accrued at the time of termination may not count toward the required hours of the Field Practicum.

C. Department Change Process

Students should be aware that any Department of Study change once the first semester begins may cause significant delays in completing the MSW program. Students must meet with the Associate Director or Regional Director for consultation and final determination.

D. Student Tasks & Responsibilities

MSW students are responsible for the following tasks to meet the course objectives for the Applied Learning in Field Education (589b) and Advanced Applied Learning in Field Education (699a/b) classes:

- Contact and meet with the Field Instructor as soon as you are notified of your placement for a pre-placement meeting, Human Resources processing, and/or agency orientation
- Participate in the agency orientation at the start of internship. If no orientation information is provided, please inquire
- Learn the different roles, tasks, responsibilities, and scope of practice of the agency
- Be open to feedback and support
- Meet with your Field Instructor for mandatory weekly supervision. Failure to comply with this requirement may result in a "No Credit" grade in this course

- Discuss field internship issues in the Integrative Learning for Social Work Practice classes (588 and 698a/b) for added feedback and support
- Maintain a diverse caseload
- Seek meaningful opportunities to learn professional and direct micro and/or macro practice skills related to AMHW, CYF, or SCI Department
- Maintain regular contact with your Field Liaison throughout the internship and discuss any and all questions/issues as soon as they arise

Note: All forms referenced in the section below can be located in the Field Internship course on the [VAC learning platform](#).

- Complete the **Learning Agreement** with the Field Instructor in the first five weeks of the first semester of community-based placement
 - Use the [digital/online Learning Agreement/Evaluation form](#). Refer to the OLAFE Manual found in the Tool box of your Field Internship course on the [VAC learning platform](#) and follow the delineated steps for the Learning Agreement

Note: Students cannot sign any agency “contracts” nor enter any agreements that refute or negate the provisions in the official agency/organization MOA with the USC Suzanne Dworak-Peck School of Social Work. This includes important policies regarding placement hours and educational calendar events such as finals week or All School Day.

- Complete and have your Field Instructor and/or Preceptor review and sign the **Field Practicum Log** weekly (internship and supervision hours and the number of Reflective Learning Tools completed during the week)
- Come prepared and actively participate in field supervision
 - A minimum of one-hour weekly supervision
 - Depending on the student’s needs, weekly supervision could include some group supervision as long as the student has individual supervision at least twice monthly
 - Group supervision may be facilitated by non-social work professionals
- Submit a total of eight completed **Reflective Learning Tools** (RLTs). A minimum of 4 RLTs must be submitted by midterm of the semester and a total of 8 by the end of each semester. The student is responsible for timely submission to the Field instructor and making sure the **Field Practicum Log** (FPL) is signed by the student and the Field Instructor
 - There are different types of RLT forms students may use:
 - Micro, mezzo, or macro templates
 - There may be instances where an agency may require the use of agency specific RLT form(s). It is important for students to consult with the 589a and 589b/699a/699b Instructors for the correct RLT form
- Submit a signed **Field Practicum Log** each month to your Liaison
- Continuously review and evaluate your performance
- Communicate, consult, and problem solve with the Field Instructor, Field Liaison, and/or Preceptor for support, concerns/issues, and as needed
- Participate in Field Liaison contacts/meetings each semester
 - Contacts/meetings may vary: on a virtual platform, by e-mail or phone
 - The meetings in the first and second semesters must be on a virtual platform
 - The meeting in the third semester of a continuous internship may vary in format as mentioned above

- More meetings may be scheduled as needed or as requested by the MSW student, Field Instructor, or Field Liaison
- Complete the **Field Evaluation** with the Field Instructor at the end of each semester of community-based placement (589b, 699a, and 699b)
 - Use the [digital/online Learning Agreement/Evaluation form](#). Refer to the OLAFE Manual found in the Tool box of your Field Internship course on the [VAC learning platform](#) and follow the delineated steps for the Field Evaluation
- Complete all additional required evaluations. Consult with the Field Liaison for the appropriate form(s)
- All paperwork must be completed and submitted before a grade is given for each semester
- Alert the Field Liaison as soon as possible if there are any issues or challenges faced by the MSW student. Issues that mandate Field Liaison notification include but are not limited to the following:
 - **Any and all harassment (including sexual harassment) and protected-class discrimination issues**
 - Issues or difficulty in progressing in the [CSWE Social Work Competencies](#)
 - Any violation of the [NASW Code of Ethics](#)
 - Non-compliance with agency policies and procedures
 - Delays in the submission of the Reflective Learning Tools
 - Documentation issues and delays
 - Excessive absences or non-approved schedule changes

Note: The USC Suzanne Dworak-Peck School of Social Work is committed to providing all possible help and support to students and early intervention is essential (See *Section G. Challenges and Support* below for further details.)

E. Supervision

MSW candidates are expected to integrate the knowledge and skills learned in the classroom with their field internship experience. The student gradually develops his/her identity as a Social Worker and learns the core competencies, values, and ethics of the profession. This is an individualized process and develops over a period of time. This growth is significantly facilitated by the Field Instructor through the process of supervision. The following are some guidelines to help students take full advantage of the field internship experience and supervision:

- Follow the school guidelines for placement
- Be on time for placement, field instruction, and field seminars
- Behave and dress in a professional manner
- Abide by the [NASW Code of Ethics](#). Note that any violation of these standards may lead to dismissal from the MSW program
- Learn and work to achieve the [CSWE Social Work Competencies](#) (grades are based on achieving these competencies)
- Maintain agency standards and practice guidelines
- Come prepared to supervision and complete all assignments on time
- Be open to constructive feedback and make the effort to try or implement the feedback
- Be pro-active in your role as a learner, articulate learning needs, and seek to meet them
- Complete and submit Reflective Learning Tool assignments on time to your Field Instructor (1 RLT every other week for a total of eight RLTs per semester)

- Share concerns/issues/questions promptly with your Field Instructor and/or Field Liaison
- Be self-aware; take time to reflect upon and process feelings, thoughts, actions, and reactions

Note: Students should approach their work at the agency as they would a place of employment, including discussing any changes and issues promptly and informing the Field Instructor and/or Preceptor of illness or absence.

F. Safety and Risk Management

It is the student's responsibility to review, understand, and comply with all the policies and protocols included in [SCampus](#), [USC Policies](#), ["Current Student Website"](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#) and [VAC Field Education Manual](#). In addition, it is also the student's responsibility to learn and adhere to all field placement agency/organization policies and protocols.

The MSW student/candidate must involve the Field Instructor and the Liaison immediately regarding any safety and risk management related issues that may occur in Field Internship. This is especially true of any safety issues and policy violations (i.e., harassment (including sexual harassment) and protected-class discrimination issues, etc.).

G. Challenges and Support

The MSW student/candidate is expected to be an active learner in Field Education and accept the guidance, support, and the evaluation of the Field Instructor. When there is a mismatch between the student's needs and the available learning opportunities and supports, challenges and issues may occur. Students are encouraged to follow these protocols to resolve any concern for immediate resolution to avoid delays in Field Internship:

- Articulate the problem. Discuss and resolve issues directly with the Field Instructor if appropriate
- Involve and communicate the issue with the Field Liaison as early as possible in the process
- If the issue persists, request the involvement of the Field Liaison for mediation/resolution

The MSW student/candidate must always be cognizant that Field Education/Internship is a class (SOWK 589a/b & 699a/b). Students must meet the standards for satisfactory academic progress and performance to pass or move forward in the program. Students who abandon class (SOWK 589a/b & 699a/b) or fail to report regularly to a field placement site do so at the risk of a grade of "No Credit" thus placing themselves in academic jeopardy, possible loss of federal financial aid, and/or risk of dismissal from the MSW program.

Note: It is the philosophy of the school to exert all efforts to resolve issues and try to prevent a replacement. It is disruptive to the student's academic programming and to the agency.

The Suzanne Dworak-Peck School of Social Work adheres to all University policies and protocols regarding registration; withdrawal; attendance; grading, grades of in-progress or incomplete; grade appeal; leave of absence; academic probation; equity, diversity, & inclusion; FERPA (Family Educational Rights and Privacy Act); and ADA Accommodations for Students with Disabilities (ADA). It also adheres to the University policies and protocols in developing student support plans.

The MSW student/candidate must involve the Field Instructor and the Field Education Office immediately regarding any issues related to Field Education. This is especially true of any USC policy violation (i.e., harassment (including sexual harassment) and protected-class discrimination issues, etc.) and ADA accommodations. Review [SCampus](#), [USC Policies](#), [“Current Student Website”](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#) and the [MSW Field Education Manual](#) for complete information. In addition, it is also the student’s responsibility to learn and adhere to all field placement agency/organization policies and protocols.

Note: American Disabilities Act (ADA) accommodations are provided when an official letter of accommodation from the [USC Disability and Services Program](#) office is presented by the student to each course instructor of record. The USC Disability and Services Program will assess, identify, and specify any Field Internship related accommodation(s) needed. The accommodation is not retroactive and is valid when the MSW student submits the letter to each Faculty member. The Placement Team will initiate required ADA accommodations when the letter is received.

H. Professional Expectations

All students are expected to adhere to and follow all ethical, legal, and policy standards and mandates of the Social Work profession and the University. Any form of violation to the Social Work profession guidelines may lead to a dismissal from the USC Suzanne Dworak-Peck School of Social Work program. It is the student’s responsibility to learn and adhere to [SCampus](#), [USC Policies](#), [Disruptive and Threatening Student Behavior Guidelines](#), [“Violence-Free Campus”](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#) and [VAC Field Education Manual](#).

I. Threats Policy

The USC Suzanne Dworak-Peck School of Social Work adheres to the University’s [SCampus](#), [USC Policies](#), [Disruptive and Threatening Student Behavior Guidelines](#), [“Violence-Free Campus”](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#) and the [VAC Field Education Manual](#) policies to ensure the safety of students, faculty, staff, and guests. It is the student’s responsibility to review, understand and comply with all of USC’s policies and protocols ([SCampus](#); [USC Policies](#); [Disruptive and Threatening Student Behavior Guidelines](#); [“Violence-Free Campus”](#); [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#); [VAC Field Education Manual](#)).

J. Social Media

The information shared on social media does not represent and cannot substitute for the information or guidance provided by faculty, staff or official program documents and communications, regarding Field Education. Official documents, policies, protocols and communications may be retrieved from [SCampus](#), [USC Policies](#), [Disruptive and Threatening Student Behavior Guidelines](#), [“Violence-Free Campus”](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#), [VAC Field Education Manual](#), course syllabi and written and verbal communications from Field Education Faculty and Administration. Any Field Education related issues, disputes, complaints or requests should be redirected to the student’s Field Liaison or to the Associate Directors of Field Education.

Students should use extreme caution when participating in social media forums. Be mindful of any references to the field agency and client related information or interactions. Students are

expected to adhere to all legal and ethical responsibilities of the Social Work profession. Keep in mind the public nature of any social media forums despite all security and privacy settings. The USC Suzanne Dworak-Peck School of Social Work has provided social media guidelines for students to use ([USC Suzanne Dworak-Peck School of Social Work Policies and Procedures-Social Media Section](#)). The MSW student assumes responsibility for any social media output that is not pre-approved by the current field placement site and/or the USC Suzanne Dworak-Peck School of Social Work.

While enrolled in the MSW program at USC, students are expected to adhere to the provisions of [SCampus](#), [USC Policies](#), [USC Disruptive and Threatening Student Behavior Guidelines](#), ["Violence-Free Campus"](#), [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#), [VAC Field Education Manual](#), [NASW Code of Ethics](#) and the guiding principle of "Do No Harm" in relation to the well-being of fellow students, agency personnel, clients and the communities in which they work and serve in internships. As in any situation, the placement agency has the right to dismiss a student for unprofessional and unethical behaviors, which will prompt an academic review process in the form of a Student Performance Improvement Plan (SPIP).

III. FIELD INSTRUCTOR INFORMATION

A. Introduction

Field Instructors play a crucial role in the USC Suzanne Dworak-Peck School of Social Work Field Education experience. They provide the students the opportunity to merge previous life and work knowledge with the development of new professional competence. Field Instructors must follow the objectives that are specific to the 589b, 699a, and 699b field internship curricula. The overarching objective of Field Instructors throughout all semesters and across all departments is to prepare students to enter the Social Work profession.

Field Instructors are engaged in three basic Field Education components. *First*, they must orient the students to the professional system of the agency, including but not limited to the

purpose of the agency, the community it serves, its policies and protocols (particularly risk management and safety), and expectations for professional dress and comportment. The agency/organization orientation and the Field Internship should be geared towards introducing and familiarizing the MSW student to the [CSWE Social Work Competencies](#).

The *second* crucial component is the development of the teacher-learner relationship between the MSW student and the Field Instructor. This starts at the first contact wherein the Field Instructor clarifies and establishes roles, expectations, and the framework for the relationship.

The last and *third* component is the development of broad and rich case assignments and field experiences. The MSW student is expected to engage in a wide variety of Social Work activities from the beginning to the end of field placement. Field Instructors are responsible in providing direct practice experiences consisting of but not limited to the following:

- Multi-level practice work: individual, group, and systemic interventions
- Multiple treatment modalities
- Assessment, diagnosis, treatment planning, and intervention
- Multi-cultural population
- Advocacy, resource referral, community needs assessment, evaluation, and documentation

- Termination
- Macro skill development such as advocacy, evaluation, fundraising and development, grant writing, program development, and others as indicated in the specific Department of Study.

Field Internship is a time-bound experience, and the Field Instructor carries the responsibility for planning, implementing, monitoring, and evaluating the student's educational experience based on the student's progress in meeting the [CSWE Social Work Competencies](#).

B. Field Instructor Qualifications

MSW Interns are supervised by Field Instructors designated by the agency and the USC Suzanne Dworak-Peck School of Social Work. These Field Instructors are committed to teaching and upholding the values and ethics which have been developed over the long history of the Social Work profession. The Field Instructor must be identified and complete the application process at the same time an agency site is approved. New or replacement Field Instructors may complete the application process at any time. Field Instructors must have the following to qualify:

- An MSW degree from a CSWE accredited school of social work
- At least two years of post-MSW work experience
- Plan to attend a 12 to 15-hour long training for new Field Instructors conducted by USC or any CSWE accredited School of Social Work as approved by Field Education
- A completion certificate for new field instruction class from USC or any CSWE accredited School of Social Work as approved by Field Education

In addition, Field Instructors must meet the criteria required to teach and support MSW interns in field placement. They must also be committed to meet all documentation, supervision, and evaluation requirements of the program, particularly the ability to assess student progress based on the most current [CSWE Social Work Competencies](#) identified in the Educational Policy and Accreditation Standards (EPAS).

C. Field Instructor Tasks & Responsibilities

Field Instructors are responsible for the following tasks to meet the Field Internship course objectives:

- Meet student(s) prior to the start of the internship for a pre-placement meeting
- Facilitate and assist students with any Human Resources process and/or requirements
- Provide an agency orientation at the start of internship
- Clearly define the student's role, tasks, responsibilities and scope of practice
- Provide training, consistent communication, feedback and support to students
- Assign and maintain a diverse caseload/workload
- Provide meaningful opportunities to learn professional and direct micro and/or macro practice skills related to the student's Department, semester of study, and/or track.

Field Internship is a time-bound experience, and the Field Instructor carries the responsibility for planning, implementing, monitoring, and evaluating the MSW student's educational experience based on the student's progress in meeting the [CSWE Social Work Competencies](#).

Note: All forms referenced in the section below can be located in the student's Field Internship course on the [VAC learning platform](#).

- Complete the **Learning Agreement** with the MSW student in the first five weeks of the first semester of community-based placement
 - Use the [digital/online Learning Agreement/Evaluation form](#). Refer to the OLAFE Manual and follow the delineated steps for the Learning Agreement
- Provide and review the agency/organization Safety & Risk Management, harassment (including sexual harassment) and protected-class discrimination policies and protocols including identifying the individual to whom a report should be made
- Identify and assign a Preceptor as needed (include Preceptor feedback in the Learning Agreement/Evaluation)
- Provide Field Instruction
 - A minimum of **1-hour** individual/group weekly supervision
 - Depending on the student's needs, weekly supervision could include some group supervision as long as the student has individual supervision at least twice monthly
 - Group supervision may be facilitated by non-social work professionals
- Review and sign the **Field Practicum Log** weekly (internship and supervision hours and the number of Reflective Learning Tools completed during the week)
- Review and discuss the **Reflective Learning Tool** bi-weekly (a minimum of 4 must be submitted by midterm of the semester and a total of 8 by the end of each semester). The Field Instructor (FI) must verify the **Field Practicum Log** weekly each semester.
 - **Alert the Field Liaison if the student has not submitted 2 or more RLTs.**
 - There are different types of RLT forms students may use:
 - Micro, mezzo, or macro templates
 - If the agency requires the use of an agency RLT form(s), the agency Field Instructor and student(s) must consult with the 589b, 699a, & 699b Instructor/Field Liaison for approval prior to use
- Continuously monitor and evaluate the student's performance
- Communicate, consult, and problem solve with the Field Liaison for support, challenges, and as needed
- Maintain regular contact with the Field Liaison throughout the internship to discuss any and all questions/issues as soon as they arise
 - Participate in Field Liaison contacts/meetings. Contacts/meetings may vary: on a virtual platform, by e-mail or phone
 - The meetings in the first and second semesters must be on a virtual platform
 - The meeting in the third semester of a continuous internship may vary in format as mentioned above
 - More meetings may be scheduled as needed or as requested by the MSW student, Field Instructor, or Field Liaison
- Complete the **Field Evaluation** with the student at the end of each semester of the community-based placement:
 - Use the [digital/online Learning Agreement/Evaluation form](#). Refer to the OLAFE Manual and follow the delineated steps for the Field Evaluation
- Provide a grade recommendation on the **Field Evaluation** ([digital/online form](#)):
 - Recommend a grade of Credit or No Credit in the OLAFE Form
 - Notify the Field Liaison as soon as possible if the student appears to be at-risk of failing to complete any of the requirements for Field Internship to develop a

Student Performance Improvement Plan – SPIP (see *Evaluation/Grading* on page 12)

- A “No Credit” recommendation should always be made in consultation with the Field Liaison (as early as possible in the semester), documented, and accompanied by a SPIP (copies will be retained by the student, Field Instructor, Field Liaison, and Office of Student Affairs)
- The Field Liaison will approve and assign the final grade

Note: Students cannot sign any agency “contracts” nor enter any agreements that refute or negate the provisions in the official agency/organization MOA with the USC Suzanne Dworak-Peck School of Social Work. This includes important policies regarding placement hours and educational calendar events such as finals week or All School Day.

- Complete any additionally required evaluation. Please consult with the Field Liaison for the appropriate form(s)
- Facilitate the scheduled and/or unscheduled termination from the agency
- Alert the Field Liaison as soon as possible if there are any issues or challenges faced by the MSW student. **Issues that mandate Field Liaison notification include but are not limited to the following:**
 - **Any and all harassment (including sexual harassment) and protected-class discrimination issues**
 - Any violation of the [NASW Code of Ethics](#)
 - Issues or difficulty in progressing in the [CSWE Social Work Competencies](#)
 - Non-compliance with agency policies and procedures
 - Delays in the submission of the Reflective Learning Tools
 - Documentation issues and delays
 - Excessive absences or non-approved schedule changes

Note: The USC Suzanne Dworak-Peck School of Social work is committed to providing all possible help and support to students and early intervention is essential (Please see *Section E* below for further details).

D. Field Instruction

Field instruction takes many forms and methodologies. It ranges from the didactic method to experiential. It also varies in structure and technique. It is influenced by multiple factors such as the agency’s focus, resources available, and the skills, interest, and the personality of both the instructor and the student. Although field instruction is a highly individualized process, the required components mentioned in the previous section are essential and non-negotiable.

The following are some general Field Instructor guidelines for teaching and supervising MSW students and are meant to help establish a supportive learning and working environment:

- Adhere to regularly scheduled field instruction conferences with your student.
- Create a supportive environment and a positive teaching relationship taking into account your teaching style and the student’s learning style.
- Be aware that you are the role model for client and peer relationships and interactions.
- Acknowledge authority-dependency conflicts and use as teaching opportunities.
- Establish your role as both supervisor and teacher early in the relationship.

- Make assignments meaningful and utilize the Reflective Learning Tool early in the relationship.
- Focus on the process and not just the content.
- Balance performance monitoring with positive supportive feedback and genuine praise. Feedback needs to be relevant, clear, balanced, and timely. Encourage the student to reciprocate.
- Use case and project analysis in helping students examine their work, meet their learning objectives, process their reactions, and foster self-awareness.
- Assist the student to identify feelings, attitudes, biases, and reactions that affect their work.
- Discuss with the Field Liaison if personal therapy seems indicated.
- Introduce the use of audio taped, video recordings, and/or role-playing as a way to enrich the student's learning.
- Guide students in navigating the Developmental Stages of Internship based on the work of Sweitzer & King, 2004 (see *Appendix G*).

E. Challenges and Support

Field Education is inherently filled with positive and negative experiences and challenges. It is the job of the Field Instructor to create a stable learning environment in order to address these experiences and challenges as learning opportunities and to facilitate the student's educational progress. It is the responsibility of the Field Liaison as the University representative to provide support and guidance in order for the Field Instructor and the student to succeed in this endeavor. As part of the process, Field Instructors are asked to balance opposing and/or complimentary forces such as the following in order to foster learning:

- Challenge vs. Support
- Autonomy vs. Dependence
- Learning Objectives vs. Agency Objectives
- Authority vs. Mutuality
- Education vs. Training

In most instances, a balanced approach is enough to prevent any major problems in the field experience. Sometimes it is not sufficient and challenges in the learning process may occur. Some examples are:

- Persistent unprofessional and/or unethical conduct including disruptive behavior
- Conflicts in teaching and learning styles
- Not meeting agency and field requirements (charting, documentation, inconsistent or insufficient hours, etc.)
- Insufficient skill or inability to meet learning objectives

When this arises, Field Instructors are required to provide an early warning to students of the areas that need improvement, based on the [CSWE Social Work Competencies](#):

- Identify and attempt to discuss and resolve the issue(s) directly with the student
- Document the issue and efforts to resolve it
- Notify and consult the assigned Field Liaison of the issue as soon as possible
If you are not certain who the Field Liaison is, you may email vacfield@usc.edu to identify the student's Field Liaison
- Invite the Field Liaison to mediate if unable to resolve it

- If it persists, collaborate with the Field Liaison in formulating a Student Performance Improvement Plan (SPIP) to identify the issue(s) and step(s) to redress the situation
- If the issue persists, the Field Liaison may remove/re-place the student. If replacement is indicated, you will be asked to complete an evaluation of the student's progress based on the [CSWE Social Work Competencies](#) as of the date of the student's departure from the agency

It is the philosophy of the school to make all efforts to prevent a re-placement. It is disruptive to the agency and to the learning process of the student.

Note: All Field Instructors are obligated to respond to any field internship related student concerns and to all issues pertaining to Safety & Risk Management; harassment (including sexual harassment); and protected-class discrimination issues. They are also mandated to report certain field related issues (refer to the below section) to the University Field Liaison as agreed upon in the [Memorandum of Agreement \(MOA\)](#).

F. Safety and Risk Management

The school recognizes that students cannot be insulated from the risks in providing services to people, institutions, and communities in crisis. Students frequently lack the experience and skills to assess risk and take appropriate precautions. Basic safety measures are thoroughly discussed in the seminar class to help prevent any problems but it is still not enough. Field Instructors must also review agency safety and risk management policies and protocols with students. Completion of this orientation must be indicated in the Orientation Checklist portion of the Learning Agreement in the first semester of community-based placement. It should include but not be limited to the following:

- Building/office security policy
- Fire, earthquake, and other emergency protocols
- Transportation policies and insurance requirements
- Equity and diversity issues
- Home / school / community visit safety policy and protocols
- Crisis intervention and disaster protocols
- Emergency and support contacts
- HIPAA-compliant communication protocols including policy on use of personal and/or University email addresses or personal devices
- Federal, state, local, and agency/organization specific safety and risk management policies and protocols (i.e. weapon related and substance related policies, et cetera)

Periodic review of these safety measures is strongly recommended. **All Field Instructors are obligated to respond to any student related concerns pertaining to Safety & Risk Management, harassment (including sexual harassment), and protected-class discrimination issues. They are also mandated to report all issues to the University Field Liaison as agreed upon in the [Memorandum of Agreement \(MOA\)](#).**

Note: All MSW students are required to learn and understand all Social Work profession expectations and all University and agency policies and protocols. Field Instructors are encouraged to do the same ([NASW Code of Ethics](#); [CSWE Educational Policy and Accreditation Standards](#); [SCampus](#); [USC Policies](#); [Disruptive and Threatening Student Behavior Guidelines](#); ["Violence-Free Campus"](#); [USC Suzanne Dworak-Peck School of Social Work Policies and Procedures](#); [VAC Field Education Manual](#)) to be able to guide and support MSW students in their new role as Social Work Interns.

G. Strike Policy

Field Education's policy regarding agency strikes/work actions is based on the principles of educational integrity. It focuses on how educational expectations, goals and objectives can be met and maintained. The primary consideration is the student's educational experience rather than the merits of any given strike or work action. It is the School's belief that a strike bound agency is not able to provide a climate conducive to a sound educational experience. Field Education will make the assessment and decide on a course of action depending on the situation. The USC Suzanne Dworak-Peck School of Social Work encourages the Field Liaison and Field Instructor to organize opportunities for students to learn from all parties and engage discussions regarding the issues at hand. See *Appendix I* for possible courses of action.

IV. FAILURE TO MAKE SATISFACTORY PROGRESS IN FIELD EDUCATION – ACADEMIC WARNINGS

All USC students are entitled to fair warning and non-arbitrary dismissal procedures. The University of Southern California Catalogue describes these procedures in the section ["Academic Warning and Dismissal" of Graduate Students](#). This section of the Field Manual provides specific policies and protocols for Academic Warning and Dismissal of Graduate Students as they relate to the Field Internship.

A. Level I: The First Academic Warning – Student Performance Improvement Plan (SPIP) – Field Education Student Review Meeting with the Field Instructor and as needed with the Regional Field Faculty Member

Students who fail to make satisfactory progress in the Field Internship will be so informed by the Field Instructor and Faculty Field Liaison. Satisfactory progress is measured by the student's timely completion of the required number of hours and assignments in placement each semester (450 hours in 589a/b and 550-600 hours 699a/b), as well as developing and building proficiency in the [CSWE Social Work Competencies](#).

A **Student Performance Improvement Plan (SPIP)** is considered the first written academic warning and is required as early as possible in the first semester as well as all the subsequent semesters if a student shows signs of:

- Failure to complete the required number of hours in placement and/or
- Failure to submit Reflective Learning Tools in a timely fashion and/or
- Failure to develop proficiency in any of the [CSWE Social Work Competencies](#) and/or
- Failure to adhere to the [NASW Code of Ethics](#) and/or
- Failure to meet any other professional expectations as identified by the Field Instructor and/or Field Liaison.

The Field Liaison will contact the student and will schedule a Field Education Review Meeting with the student and Field Instructor. The Regional Field Faculty member may also be invited as needed. During the meeting, the Student Performance Improvement Plan (SPIP) will be reviewed and finalized by the Field Liaison. The intent is to identify the specific areas in which the student must improve to successfully complete the program. The document should include the following information:

- Specific actions, behaviors, or events that would constitute unsatisfactory progress, such as but not limited to the following:
 - Failure to complete number of required Field hours within the semester
 - Excessive absences from the placement agency

- Failure to meet with Field Instructor and/or Preceptor on a weekly basis
- Failure to comply with agency policy and procedure
- Failure to respond to requests made by Field Liaison, Advisor and Regional Director
- Failure to present oneself in a professional manner when interacting with clients, peers, faculty and agency personnel
- Failure to complete the required Reflective Learning Tools
- Excessive self-disclosure of personal information which has a deleterious effect on clients
- Abandonment of Field Placement
- Students are not allowed to make any changes in their Field Internship placement without the approval of a USC Field Faculty. Students may not render a “resignation” or abandon their placement
- Refusal to work with any Field Education Administration and Faculty including Field Liaisons and External Field Instructors. Consequences of failing to respond to any communication attempts (phone, e-mail, and/or letter) include the risk of dismissal from the program.
- Refusal to work with the assigned Field Instructor
- Specific actions, behaviors or events that would constitute satisfactory academic progress, such as but not limited to the following:
 - Submit a completion plan with a specific timetable and deadlines
 - Submit all missing RLTs by a specific date and submit all future RLTs on a weekly basis as required
 - Desist from self-disclosure during individual and/or group therapy
- Specific dates within which these actions, behaviors or events must take place
- Consequences of failing to meet deadlines, including risk of dismissal from the program
- Space for the student to sign and date the letter as an indication of receipt and understanding

Note: Some actions, behaviors, and/or events may require a higher level of academic action. The Field Liaison and the Regional Field Faculty member will make this determination.

B. Level II: The Second Academic Warning – Failure to Improve – Field Education Student Review Meeting with the Regional Director and Field Liaison

If the student does not meet the deadlines and expectations set forth in the Student Performance Improvement Plan, an Academic Review Meeting will be conducted with the Regional Director and Field Liaison, and as needed the Associate Director of Field Education, a representative from Student Life, a representative from Student Services, and the Student Support Advisor. A written summary letter of the meeting will be provided to the student. The letter is the second level of written warning that the student is at serious risk of dismissal from the MSW program.

C. Level III: Dismissal and Appeal Procedure

A student who continues to fail the Field Education courses, fails to meet the Core Competencies, and/or who engages in unethical/illegal behavior will be dismissed from the MSW program. The Associate Director in collaboration with the Senior Vice Dean, Director of Field Education will make the final determination for dismissal if and when a student continues

to fail to meet the expectations of the MSW program despite Level I and Level II early interventions and academic warnings.

The student will receive a formal letter of dismissal from the Office of the Senior Vice Dean, Director of Field Education. Students who wish to appeal the dismissal must contact the Office of Student Services by the specific date indicated in the formal letter. The student must engage in a formal appeals process as outlined in the [USC Suzanne Dworak-Peck School of Social Work Policies & Procedures](#):

“...In compliance with the academic policies outlined in [SCampus](#) under University Governance and Academic Policies, the school has two levels of appeal for disputed evaluation after the instructor: 1) dean and 2) Office of the Provost. In the school, appeals to the dean will be handled by the MSW Chair.

...Students wishing to appeal to the MSW Chair must submit to the director of student services a detailed narrative explaining the reason(s) for the appeal. The student should also outline the outcome/resolution that he or she is seeking. A written decision will be sent to the student after the MSW Chair. Normally the decision should be sent to the student within approximately 15 days after the review. This time may be extended if necessary. The student should be informed in writing if the decision will be delayed.

Student Appeal to the Graduate School SCampus specifies the student may appeal to the Office of the Provost. That appeal should be sent to the associate dean for graduate academic affairs in the Graduate School.”

Note: Students are responsible to review, understand and comply with the policies and protocols contained in the [SCampus](#), [USC Suzanne Dworak-Peck School of Social Work Policies & Procedures](#), and [VAC Field Education Manual](#).

D. Students Terminated or Dismissed from the Placement Agency or Organization

Placement agencies have the right to terminate or dismiss students at any time due to behaviors which the Field Instructor, agency director and/or administrator deem inappropriate or unethical. These are infrequent but problematic occurrences which represent a serious setback to and a disruption of the student’s academic progress and the student’s ability to successfully complete the MSW degree. Once terminated or dismissed, the student loses all hours accumulated for that semester. A Student Performance Improvement Plan will automatically be generated and a review meeting will be convened.

Based on the deliberations of the Field Liaison, Advisor, and Field Education administrators, the student may be allowed a second placement. However, no hours from the previous placement will be “rolled over” into the second placement or credited to the student.

Should the student be asked to leave the second placement, no further placements will be assigned. The student will receive a written notice of a “No Credit” grade for the Applied Learning in Field Education class and the student will be considered for dismissal from the MSW program.

Meeting the requirements for overall grade point average is not sufficient to successfully complete the requirements of the MSW program. If a student maintains a high grade point average but fails to adhere to the [NASW Code of Ethics](#) and to achieve proficiency in the [CSWE Social Work Competencies](#), then the student by definition is at high risk for dismissal.

E. Grounds for Dismissal from the MSW Program – Based on [NASW Code of Ethics](#) and State Behavioral Health Licensure Standards

The Social Work profession is solidly grounded in the [NASW Code of Ethics](#) which defines the professional standard of behavior that practitioners and graduate students must maintain in their work with and behavior toward clients and peers. State behavioral health and professions laws further define behaviors considered so egregious that licensure of a practitioner is denied or revoked.

Consequently, immediate dismissal from the MSW program is based upon these two professional benchmarks: Ethical principles as elucidated in the [NASW Code of Ethics](#) and state behavioral health licensure standards. Grounds for immediate dismissal from the MSW program therefore include but are not limited to the following:

- Sexual and/or other inappropriate relationship with clients including interactions within the agency and outside the agency involving exchange of money, co-habitation, or harassment
- Fraudulent documentation of patient contact, particularly false documentation which may trigger government or private insurance payments and reimbursement for services that were not provided
- Behaviors which demonstrates callous disregard of the health, safety or wellbeing of self, clients, peers and/or agency staff
- Actions which cause agency disruptions and create a hostile and/or unsafe work environment
- Actions which breach patient/client confidentiality including unauthorized access to patient records or misuse and unethical reporting of confidential information to others, thereby violating patient/client rights to privacy
- Falsification of student field hours or any misrepresentation of student participation in the Field Internship or required Field Internship activities or assignments
- Falsification of client or agency records or any documentation and in particular fraudulent billing
- Class abandonment – leaving the field placement without notification to or approval from all of the following individuals: the Field Instructor, the Agency Director, the USC Field Liaison, the Regional Director, and the Associate Directors for Field Education. In the Field Internship, class abandonment is made more egregious and deemed unethical because agency clients, who may be fragile and are seeking help, are abandoned by the student's abrupt departure

Note: It is the responsibility of the student to read and understand the criteria by which academic progress is defined in the course syllabi, the information provided by [Office of Student Affairs](#), and the information provided in the [VAC Field Education Manual](#).

G. Developmental Stages of Internship based on the work of Sweitzer & King (2004)

1. Anticipation
 - Characterized by having mixed feelings of excitement, fear, doubts, and anxiety
 - Tasks: provide orientation, clear expectation, and help the student adjust
2. Disillusionment and Confrontation
 - Characterized by the conflict between the student's unrealistic expectation vs. the reality of the work
 - Task: be available, guide and support in reaching a compromise between expectation and reality
3. Competence
 - Characterized by the increase in sense of confidence, proficiency, and a better understanding of the link between theory and practice
 - Tasks: encourage more sophisticated discussion of value dilemmas, support independence and initiatives, and promote self-care
4. Culmination
 - Characterized by re-appearance of self doubt, sadness, relief, withdrawal, and/or detachment
 - Tasks: Model termination, encourage to start early, encourage students to open up and be vulnerable in supervision to process termination appropriately

H. Generalist Objectives and Outline

1. Socialize to the role of social work in the agency setting, including the professional role with clients, agency staff and other professionals;

2. Demonstrate professional competence and identity, including understanding, accepting and applying professional ethics, values, dress, and behavior;
3. Demonstrate an active and self-evaluative learning role;
4. Develop and sustain relationships and communication with clients;
5. Obtain, organize and communicate accurate information;
6. Begin to apply theory to practice and to engage in orderly thinking, utilizing at least one theoretical framework;
7. Demonstrate assessment skills understanding and conducting a bio-psycho-social history;
8. Demonstrate treatment planning skills based on information, assessment, and resources;
9. Demonstrate a variety of interventions utilizing basic interviewing skills (such as clarifying, interpreting, problem solving, resource linkage, advocacy, etc.);
10. Perform accurate and concise case presentations from a theoretical perspective;
11. Demonstrate and understand professional use of self;
12. Demonstrate knowledge of field placement agency and utilization of community resources;
13. Begin to develop leadership skills in identifying problems/issues and suggest appropriate strategies for change in both practice and policy arenas.

I. Strike Policy Course of Action

If an agency is in a bona fide strike situation prior to the beginning of the field work placement period, no students will be placed for field work in that agency for that academic year. If the agency reaches resolution of the strike situation at some point during the academic year, the agency may be used for a mid-year placement depending on re-assessment of the agency and its ability to meet the learning and educational expectations of the department. This assessment will be completed by one of the field faculty.

If a strike or work action situation occurs in an agency where students are in placement during the course of the academic year. These options may be considered:

1. The student may request not to remain in the placement agency during the period of the strike or work action. The student will be supported in this decision by the department and will not suffer any academic consequences. The field hours missed during the strike period will need to be made up by the student during the regular semester, break periods, and/or in an extended placement through May/June of the academic year. A plan to make up missed hours will be developed by the Field Faculty Liaison in consultation with the student, the Field Instructor and the Associate Director as needed.
2. The student may request to remain in the placement setting during the period of strike or work action. This option will be available only when the Department can be sure that the educational integrity of the field work placement can be maintained. This means that the supervisory requirements, caseload requirements and other expectations of field work can be consistently met by the agency during the strike or work action period and that there is no danger to the student. Students wishing to remain in the agency must discuss this plan with the Field Faculty Liaison who will verify the agency's ability to provide appropriate supervision and educational experiences. The student will be supported in this decision and will not suffer any academic consequences.

If a strike or work action continues beyond a three-week period, a reassessment of the ability of the agency to provide the appropriate supervision and educational experiences will be made by the Field Faculty Liaison. If the agency is found not able to meet the educational requirements of the field department, the student may be relocated to another agency site until the strike or work action have been resolved, and/or until the agency is able to provide the appropriate educational activities; or the student may be replaced.

It is expected that field seminars will devote some time and attention to issues around strikes, work actions, and the subsequent professional dilemmas surrounding these situations in order to assist the student in developing a clear understanding of the relevant issues in regard to the strike, and an understanding of the implications of the strike for the student's field education experience. Issues around responsibility to clients during strike situations may be discussed in field seminars or in special Field Liaison meetings with students.

J. Notice of Possible Background Checks, Drugs Testing and/or Finger Printing

The USC Suzanne Dworak-Peck School of Social Work does not require background checks, drug testing or finger printing for admission into the social work program. However, there is a national trend that an increasing number of facilities require social work students to provide, or submit to, a security clearance, background check and/or other additional information in order to participate in internships at their sites. The successful completion of internships is a prerequisite for earning a social work degree from USC.

The following are the areas of inquiry typically covered in a background check, although some clinical sites may require a more comprehensive background check:

- A sex offender database search;
- A seven-year review of a student's criminal court history, including arrest records and records of misdemeanor and felony convictions;
- Address verification;
- Two name verifications (e.g., current legal name and one other name [AKA]);
- Three county check of records;
- Search of the Department of Health and Human Services Office of the Inspector General database of excluded persons;
- Social Security number verification; and
- Division of Motor Vehicle record or abstract.

Students are solely responsible for obtaining the documentation needed to satisfy the background check and additional testing requirements of a clinical site. Occasionally an agency may subsidize the fees required to obtain background checks and any additional tests; however, the cost is usually the sole responsibility of the student.

Refusal to satisfy the background check and additional testing requirements for clinical placement, or failure to pass these checks and tests, may severely limit placement options and may cause a delay in advancing in the MSW program or prevent graduation due to the student's inability to complete Field Internship requirements. In such an event, while USC will attempt to place the student at an alternative agency, USC cannot guarantee the availability of placement sites or the student's acceptance into those sites.

In such cases, the student may not be able to earn the degree he or she is seeking at USC.

The results of the background checks and any additional testing should be reported directly to the agency site. USC does not require a copy of the results, but may request confirmation from the student or agency that all requirements for placement have been satisfied.

USC, and its trustees, agents and employees, are not responsible for any claims and liabilities arising out of or in any way related to the background check or additional testing requests or disclosures made to the internship sites.

It is required for students to apprise the Field Placement Team of any special circumstances that may impact the selection of the field placement, such as arrests or convictions, including a record which they believe has been expunged. The nature of the special circumstance may impede or significantly reduce placement options available which could affect the student's ability to complete the program and graduate. The Field Faculty member of the Regional Field Placement Team will discuss potential placement options which may be available depending upon the unique circumstances of each situation.
